

Tutor Feedback Comments

Date: 2026-07-03 Tutor: Academic Skills Centre

Feedback:

- The thesis is clear but should avoid sounding like it rejects AI detectors completely.
- Add one paragraph about citation verification.
- Explain the difference between grammar support and paragraph generation.
- Keep your AI-use log and version history in case you need to explain your process.

Student action: I revised the introduction and added the citation verification paragraph on 2026-07-04.
