

South Harbour College Academic Integrity Policy

Students must keep accurate citation information for all sources. Inaccurate references may be treated as poor scholarship or, where intentional fabrication is suspected, an academic integrity concern.

Before submitting an appeal response, students should provide:

1. A copy of the final paper. 2. A source list with stable links or DOI records. 3. Notes showing where each source was used. 4. Any draft or version history that explains the writing process.
